

Here's a little something for **Densha Otoko** fans out there - **GONZO** have announced they'll be producing a **Getsumen To**

Heiki Mina

(L

unar Surface Rabbit Weapon Mina)

OVA. Mina was the uber-cute, rabbit-eared anime character that Yamada and his otaku friends obsessed over at every opportunity. You can find the show's official website

- although if it's to be as worthy of the devotion and worship that Yamada & co send its way, it'll have to be a damn good show! Thanks to

for pointing this one out.
