

The [review](#) for ***Boku wa Imouto ni Koi wo Suru*** (*I'm in Love with my Little Sister*) seems to be one of the most popular articles on the site at the moment, so I figure this will be of interest to people: the manga is to get a live-action movie adaptation, with Japanese idol [Eikura Nana](#) playing the role of Iku and [Matsumoto Jun](#) playing Yori.

The existing OVA episode is well worth a look - if the movie is as good, it'll definitely be on my watch-list. Thanks to manganews.net for flagging this up.
