GONZO have posted a 2nd trailer for the upcoming *The Tower of DRUAGA: the Sword of URUK*, and unlike the first trailer (which basically recapped the first season), this one includes some new footage tucked away at the end of the clip (after the 1:30 mark). You can find the sneak peek [here](#).

The series is due to begin airing in January, and if you understand Japanese there's more information at the [official site](#).
